WELCOME

You are not alone

Dear Mama, dear Papa,

If you are holding this book, I already know a little of your story — because it is my story too. **I am an autism mum.** I know the child who eats only three foods. The nights that don't end. The family members who say “just give him bread, he'll be fine.” The quiet ache when the words haven't come yet.

When I changed what went on my son's plate — taking out gluten, dairy, corn and eggs, cooking real food from scratch, and adding a gentle detox drink each day — things began to change. Slowly at first. Then I saw a **real, significant improvement** in my son. I could not keep these recipes to myself.

This book holds the meals, drinks and routines that helped my family. No long science. No fancy ingredients you can't find. Just real food from our homes — yam, plantain, okro, rice and beans — made safe, one day at a time.

Every child is different, and food is not a replacement for your doctor. But it is a beautiful place to start — and you don't have to start alone.

You don't have to be perfect. You just have to begin. ♥

With love, Tris Eliverson

KNOW BEFORE YOU SHOP

Where allergens hide

Many “safe-looking” foods hide gluten, dairy, corn or caffeine. Here is where they hide — especially in our African kitchens.

Avoid	Where it hides
Gluten	Bread, semovita, wheat swallow, chin chin, puff-puff, meat pie, pasta, **Milo, Bournvita & Ovaltine** (barley malt), soy sauce, many stock cubes
Dairy	Peak/Three Crowns milk, butter, cheese, yogurt, ice cream, whey, casein, “non-dairy” creamers that contain casein
Corn	**Pap/ogi/akamu**, kenkey, banku, tuwo masara, ugali, pap (SA), custard powder, cornflour, popcorn, **baking powder** (corn starch), glucose syrup, xanthan gum, many gluten-free flour blends
Egg	Cakes, mayonnaise, some pasta, egg rolls, meat pies, many “gluten-free” breads and pancake mixes
Caffeine	Tea (black & green), coffee, matcha, cola, energy drinks, **kola nut**, chocolate & cocoa, Milo
Tuna	Canned tuna, tuna salad, some sandwiches, sushi and fish pies
Pork	Bacon, ham, sausages, lard, gelatine (sweets & jelly), some suya

The 10-second label rule

Turn the pack over. Read the ingredients **every time** — brands change their recipes. If you can't pronounce it, or it says “may contain”, leave it on the shelf.

5 steps to healing the gut

When the gut is out of balance, everything feels harder — sleep, moods, toilet troubles and picky eating. These 5 steps are the heart of this book.

1 Remove the irritants

Dairy, gluten, fried food, cookies, bread, processed food, refined sugar, corn, pap and garri.
Swap: dairy → coconut; flour → tapioca, potato or buckwheat flour.

2 Support digestion with healing nutrients

Zinc and magnesium from leafy vegetables and pumpkin seeds.

3 Repair the gut

Keep the gut hydrated and nourished: berries, psyllium husk, okro stew, egusi soup (no tripe or intestine).

4 Knock down the bad bugs

Garlic, onions, rosemary, thyme, potatoes, carrots, courgette, pumpkin, coconut yogurt, green banana and gluten-free oats.

5 Rebuild & protect — keep the good going

Feed the good bacteria every day: green banana, plantain, onions, garlic, beans and gluten-free oats, plus a spoon of coconut yogurt. Eat at regular times, drink water, sleep well and keep moving. Bring foods back **one at a time**, and keep a simple food & mood diary so you can see what helps. Ask your doctor whether a probiotic is right for your child.

Picky eating is not bad behaviour

A child who eats only three foods is often a child whose nervous system feels unsafe. Go gently. One new food at a time, next to a food they already love.

MAKE ONCE, USE ALL MONTH

Kitchen basics

BASIC Flax "Egg" (replaces 1 egg)

5 min

YOU NEED

- [ ] 1 tbsp ground flaxseed
- [ ] 3 tbsp water

STEPS

1. Stir the flaxseed and water together.
2. Leave for 5 minutes until thick, like egg white.
3. Use in pancakes, muffins and meatballs in place of 1 egg.

Why it helps: Binds food just like egg, and adds fibre and omega-3.

BASIC Healing Seasoning Mix (replaces stock cubes)

5 min

YOU NEED

- [ ] 2 tbsp onion powder
- [ ] 1 tbsp garlic powder
- [ ] 1 tbsp dried thyme
- [ ] 1 tbsp ground crayfish (optional)
- [ ] 1 tsp ground ginger
- [ ] 1 tsp white pepper
- [ ] 1 tsp pure curry powder
- [ ] 1 tbsp sea salt

STEPS

1. Mix everything in a clean, dry jar.
2. Use 1–2 tsp wherever a recipe says "seasoning".
3. Keeps for 2 months with the lid tight.

Why it helps: Many stock cubes hide wheat, corn starch and MSG. This one is pure flavour.

BASIC Soft Cassava Flatbread (wraps, pizza & pinwheels)

20 min · makes 6

YOU NEED

- [ ] 1 cup (130 g) cassava flour
- [ ] ¾ cup warm water
- [ ] 2 tbsp olive oil
- [ ] ½ tsp salt

STEPS

1. Mix everything into a soft dough. Rest 5 min.
2. Divide into 6 balls (or 2 for pizza bases).
3. Press thin between two sheets of parchment paper.
4. Cook in a dry hot pan 1–2 min each side until spotty.
5. Stack under a clean towel to stay soft.

Why it helps: A gluten-free, corn-free, egg-free wrap you can trust.

BASIC

Easy Buckwheat Bread (no yeast, no egg)

1 hr 10 min · 1 loaf

YOU NEED

- [ ] 2 cups (240 g) buckwheat flour

3. Add water, oil and vinegar. Mix to a thick, sticky dough. Rest 5 min.
4. Smooth into the tin with wet hands. Bake 55–60 min.
5. Cool completely before slicing — it firms up as it cools.

Why it helps: Buckwheat bread is on the author's speech-support list. Psyllium holds it together instead of egg.

Time saver: Slice, then freeze. Toast straight from the freezer.

BREAKFAST Fluffy Banana Buckwheat Pancakes

20 min

YOU NEED

- [ ] 1 cup buckwheat flour
- [ ] 1 ripe banana, mashed
- [ ] 1 flax egg (see Basics)

3. Heat a little oil in a pan on medium-low.
4. Cook small pancakes 2 min until bubbles appear, flip, 1 more min.
5. Top with berries and a drizzle of maple syrup.

Why it helps: Buckwheat is naturally gluten-free and full of magnesium.

Good to know: Baking soda + lemon makes pancakes rise without corn-starch baking powder.

LUNCH Okro Soup with Chicken & Pounded Yam

40 min

YOU NEED

- [ ] 500 g chicken pieces
- [ ] 15 fresh okro, chopped
- [ ] 1 cup ugu or spinach

STEPS

1. Season chicken with onion and seasoning. Cook in 2 cups water for 20 min.
2. Add palm oil, pepper and crayfish. Cook 5 min.
3. Add okro and cook only 3–4 min so it stays green.
4. Stir in the greens and turn off the heat.
5. Serve with pounded yam.

Why it helps: Okro is soft and gentle on the gut and helps keep things moving.

Kid tip: Picky eater? Blend the okro smooth so there are no "slimy bits" to see.

DINNER Mama's Pasta with Meat & Tomato Sauce

Author's family favourite
40 min

YOU NEED

- [ ] 400 g rice pasta or gluten-free pasta (or lentil pasta)
- [ ] 500 g beef mince
- [ ] 1 onion, 2 garlic cloves
- [ ] 1 carrot, finely grated (hidden veg)
- [ ] 2 tins chopped tomatoes or 6 fresh tomatoes, blended
- [ ] 1 tsp dried thyme or oregano, 1 tsp seasoning mix
- [ ] 1 tbsp olive oil, salt

STEPS

1. Soften onion and garlic in olive oil, 3 min.
2. Add the mince and brown it, breaking it up.
3. Stir in the carrot, tomatoes and herbs. Simmer 20 min.
4. Cook the pasta as the pack says. Drain.
5. Toss the pasta through the sauce and serve.

Why it helps: A dinner my son asks for again and again — simple, filling and completely safe.

Kid tip: Blend the sauce smooth if your child doesn't like to see "bits".

WEEK 1

Day 2

Today's habit: 10 minutes of bouncing or dancing — it gets the lymph system moving.

BREAKFAST Boiled Yam with Ugu & Tomato Sauce

30 min

YOU NEED

- [ ] ½ medium yam, peeled & sliced
- [ ] 2 cups ugu (or spinach), chopped
- [ ] 3 fresh tomatoes, chopped
- [ ] 1 onion, sliced
- [ ] 2 tbsp unrefined red palm oil
- [ ] ¼ tsp ground crayfish (optional)
- [ ] Pinch of salt

STEPS

1. Boil the yam in salted water for 15–20 min until soft.
2. Warm the palm oil gently — don't let it smoke. Add onion, cook 2 min.
3. Add tomatoes and crayfish. Cook 5 min.
4. Stir in the ugu, cook 2 min, then turn off the heat.
5. Spoon the sauce over the yam.

Why it helps: Yam gives slow, steady energy. Ugu is rich in iron and magnesium.

Swap it: No yam? Use sweet potato. No ugu? Use spinach, kale or sukuma wiki.

LUNCH Chicken Burrito Bowl

35 min

YOU NEED

- [ ] 2 cups rice
- [ ] 600 g chicken thighs
- [ ] 1 tsp each cumin & paprika, ½ tsp garlic powder
- [ ] 1 tin black beans, rinsed
- [ ] 2 avocados, sliced
- [ ] 3 tomatoes + ½ red onion + coriander (salsa)
- [ ] 2 limes, olive oil, salt

STEPS

1. Cook the rice.
2. Rub chicken with the spices, oil and salt. Bake at 200 °C / 400 °F for 25 min, then slice.
3. Warm the beans with a pinch of salt.
4. Chop tomatoes, onion and coriander with lime juice for salsa.
5. Build bowls: rice, beans, chicken, avocado, salsa.

Why it helps: Beans and avocado bring fibre and healthy fats that keep little tummies full.

Allergy note: Shop-bought bowls usually add corn — this one leaves it out.

DINNER Coriander Pepper Fish & Green Plantain

35 min

YOU NEED

- [ ] 4 small mackerel (titus) or tilapia
- [ ] 3 green (unripe) plantains
- [ ] 1 handful fresh coriander
- [ ] 2 garlic cloves, 1 small onion
- [ ] 1 scotch bonnet (skip for kids)
- [ ] 1 tbsp olive oil, juice of 1 lemon, salt

STEPS

1. Blend coriander, garlic, onion, pepper, oil, lemon and salt to a paste.
2. Rub the paste over the fish. Rest 15 min.
3. Bake on parchment at 200 °C / 400 °F for 20–25 min (no foil).
4. Meanwhile, peel and boil the plantains for 20 min.
5. Serve with sliced cucumber.

Why it helps: Small fish carry far less mercury than tuna. Coriander is a traditional cleansing herb.

STEPS

1. Stir oats, coconut milk, chia, cinnamon and maple together.
2. Spoon into 4 jars or cups.
3. Cover and chill overnight.
4. In the morning, top with mango and eat cold.

Why it helps: Chia and oats are gentle fibre for regular, easy bowels.

Swap it: Can't have oats? Use millet or buckwheat flakes instead.

2. Blend tomatoes, peppers, onion and scotch bonnet.
3. Fry tomato paste in oil 3 min, add the blend and cook 15 min until thick.
4. Add spices, stock and rinsed rice. Cover tightly and cook on low 25–30 min.
5. Fluff and serve with the chicken and a fresh salad.

Why it helps: A home favourite made without stock cubes — all flavour, no hidden wheat or MSG.

2. Toss the wedges with 1 tbsp oil and salt. Bake 30 min.
3. Toss chicken in the remaining oil, then roll in flour mixed with the spices.
4. Bake the nuggets 15–18 min, turning once, until golden.
5. Serve with peas and Sunshine Ketchup (Lunch Box book).

Why it helps: All the fun of fast food — with no egg, no wheat crumb and no deep frying.

Picky eater trick: Let them dip! Children try more food when they can dip it.

WEEK 1

Day 4

Today's habit: eat breakfast near a sunny window or outside — morning light helps sleep later.

BREAKFAST Creamy Millet Porridge (Hausa Koko Style)

15 min

YOU NEED

STEPS

1. Mix the millet flour with 1 cup cold water until smooth.
2. Boil the rest of the water with ginger, cloves and dates.
3. Pour in the millet mix, stirring all the time.
4. Cook 8–10 min on low until thick. Stir in coconut milk.

Why it helps: Millet is a gluten-free ancient grain that is gentle on the stomach.

Allergy note: Many "koko" and "uji" mixes contain maize — buy pure millet flour.

LUNCH Creamy Butternut "Mac & Cheese"

30 min

YOU NEED

- [ ] 400 g lentil or chickpea pasta
- [ ] 3 cups butternut squash, cubed
- [ ] 1 cup coconut milk

STEPS

1. Boil the squash and garlic 12 min until soft. Drain.
2. Blend with coconut milk, nutritional yeast, turmeric and salt.
3. Cook the pasta, adding the broccoli for the last 3 minutes.
4. Stir the golden sauce through the pasta.

Why it helps: Squash is a root-vegetable carb from the author's "foods to eat" list — and kids love the colour.

Leftover magic: Bake leftovers in a muffin tin for 15 min to make mac bites for lunch boxes.

DINNER Egusi Soup with Beef & Amala

50 min

YOU NEED

- [ ] 1 cup ground egusi

4. Add beef, stock and crayfish. Simmer 10 min.
5. Stir in the greens. Serve with amala.

Why it helps: Egusi (melon seeds) is a gut-repairing food from step 3 — rich in protein and zinc.

30 min

YOU NEED

- [ ] 500 g chicken thighs, thinly sliced
- [ ] 1 tin coconut milk + 3 cups stock
- [ ] 1 stalk lemongrass, bashed

2. Add chicken and cook 8 min.
3. Pour in coconut milk and coconut aminos. Heat gently.
4. Cook the noodles, divide into bowls and ladle soup over.

4. Stir pan juices with tapioca mixed in a little water until thick — gravy!
5. Serve with steamed broccoli.

Why it helps: Rosemary, thyme and garlic are all on the author's gut-friendly list.

Allergy note: Gravy granules often contain wheat and corn starch. Tapioca makes a safe gravy.

Author's family favourite
45 min

YOU NEED

- [ ] 500 g chicken (breast or thighs)
- [ ] 4 Irish potatoes, peeled & cubed
- [ ] 4 carrots, sliced
- [ ] 1 onion, 2 garlic cloves
- [ ] 1 tsp dried thyme, 1 tsp seasoning mix, salt

2. Boil the potatoes and carrots in the same stock for 15 min until soft.
3. Blend the vegetables smooth — or blend half and chop the rest very tiny.
4. Stir the shredded chicken back in. Simmer 5 min.
5. Serve warm with buckwheat bread.

Why it helps: My son's favourite. Blending the vegetables means he gets all the goodness without seeing them.

Kid tip: Some days blend it all, some days leave tiny pieces — a gentle way to get used to new textures.

3. Freeze for 6 hours or overnight.
4. Run the mould under warm water for 10 seconds to pop out.

Why it helps: A sweet, cold treat with no dairy, no refined sugar and a big dose of vitamin C.

Sweet moment: Let your child pour the mix into the moulds — helping makes them want to taste.

SWEET TREAT

Banana Blueberry "Nice-Cream"

No refined sugar
5 min

YOU NEED

- [ ] 3 ripe bananas, sliced and frozen
- [ ] 3 tbsp coconut milk
- [ ] Handful of blueberries
- [ ] Sprinkle of pumpkin seeds (optional)

STEPS

1. Blend the frozen banana and coconut milk until thick and creamy.
2. Add the blueberries and pulse a few times for purple swirls.
3. Scoop into bowls and top with pumpkin seeds. Eat straight away.

Why it helps: Tastes like ice cream, but it's just fruit. Blueberries are rich in antioxidants.

Sweet moment: Freeze sliced bananas every time they get spotty — instant dessert, no waste.

Every Friday is Sweet Treat Day — because healing food should still feel like a celebration.

BONUS: CELEBRATIONS

Party survival guide

Parties, owambes, church events and school trips can feel scary. With a little planning, your child can join in — and feel included.

Before the party

- Message the host early. Share the allergy card from the Printables pack.
- Ask what will be served — then offer to bring one safe dish to share.
- Feed your child a proper meal first, so they're never hungry and tempted.

Pack a "party box"

- A slice of the Celebration Cake, frozen ahead in portions.
- Nuggets, plantain chips, fruit kebabs, a juice from Healing Sips.
- Make it look special — a bright box, a sticker, a party napkin.

At the party

- Stay close to the food table for younger children.
- Teach a simple line: "No thank you, I have my own special snack."
- Watch for shared bowls of sweets, chin chin and puff-puff.

Eating out

- Choose grilled chicken or fish, plain rice, boiled potatoes, salad.
- Ask: "Is there wheat, milk, butter, egg or corn starch in this?"
- Avoid sauces, gravies, batters and anything deep-fried in shared oil.

Sensory overwhelm is real

Loud music and crowds can be a lot. Arrive early when it's quiet, find a calm corner, and plan a gentle exit time. Leaving happy is a win.

BEFORE YOU START

7 golden lunch box rules

A good lunch box is safe, simple and fun. Follow these 7 golden rules and lunchtime gets easier for everyone.

1. **Pack the night before**
   Mornings are busy. Pack everything except hot food the evening before.

2. **One safe food + one new food**
   Always include a food your child already loves. Put the new food beside it — no pressure.

3. **Keep it cold — or hot**
   Use an ice pack for cold boxes and a thermos for warm food like jollof or soup.

4. **Every box is nut-free**
   Most schools are nut-free. We use sunflower-seed butter instead of peanut butter.

5. **Tell the teacher**
   Give the school a copy of the allergy card from the Printables pack.

6. **Small and colourful wins**
   Small portions, bright colours and fun shapes. Cookie cutters are your best friend.

7. **Let them choose**
   Offer two choices: “Nuggets or pinwheels tomorrow?” Children eat what they choose.

DAY 1 Chicken Nugget Happy Box

Prep the night before

YOU NEED

- [ ] 6 homemade chicken nuggets
- [ ] Handful of sweet potato wedges
- [ ] Apple slices + squeeze of lemon
- [ ] Cucumber sticks
- [ ] 2 tbsp Sunshine Ketchup

STEPS

1. Coat chicken pieces in olive oil, then cassava flour, paprika and salt.
2. Bake with the wedges at 220 °C / 425 °F for 15–18 min.
3. Sunshine Ketchup: simmer 1 cup passata, 2 chopped dates, pinch of salt and a splash of apple cider vinegar for 10 min; blend.
4. Morning: pack everything, ketchup in a little pot for dipping.

Why it helps: A homemade “happy meal” with no egg, no wheat and no added sugar.

Picky eater trick: Cut apple slices with a heart cookie cutter. Shapes make food fun.

DAY 2 Mini Pizza Pinwheels

15 min

YOU NEED

- [ ] 1 cassava flatbread or tortilla
- [ ] 2 tbsp tomato passata + pinch oregano
- [ ] 2 tbsp dairy-free cheese, grated
- [ ] A few shreds of cooked chicken
- [ ] Grapes (halved for under-5s)
- [ ] Carrot sticks

STEPS

1. Spread passata over the flatbread. Sprinkle oregano, cheese and chicken.
2. Roll up tightly and slice into 6 rounds.
3. Bake at 200 °C / 400 °F for 8 min — or pack cold.
4. Pack with the grapes and carrots.

Why it helps: All the pizza flavour kids love, in a fun swirl shape.

DAY 3 Rainbow Rice Ball Bento

15 min

YOU NEED

- [ ] 1 cup cooked short-grain rice
- [ ] ½ cup shredded cooked chicken
- [ ] Pinch of salt
- [ ] Cucumber coins
- [ ] Strawberries & mango cubes
- [ ] Coconut yogurt dip

STEPS

1. Mix the warm rice with chicken and salt.
2. With wet hands, roll into 6 small balls.
3. Pack each food in its own section, sorted by colour.
4. Add the dip in a small pot.

Why it helps: Separate sections are perfect for children who don't like foods touching.

Fun idea: Ask your child to “eat the rainbow” — one bite of every colour.

DAY 4 Turkey & Avocado Roll-Ups

10 min

YOU NEED

- [ ] 1 cassava flatbread or tortilla
- [ ] ½ avocado, mashed
- [ ] 3 slices homemade roast turkey or chicken
- [ ] Lettuce leaf, grated carrot

STEPS

1. Spread avocado over the flatbread.
2. Layer turkey, lettuce and carrot.
3. Roll tightly and cut into 2-bite pieces.
4. Pack with blueberries and plantain chips.

Why it helps: Homemade meat avoids the nitrates found in most deli slices.

DAY 5 Mini Meatball Skewers

30 min

YOU NEED

- [ ] 250 g beef mince
- [ ] 1 flax egg
- [ ] 2 tbsp cassava flour
- [ ] 2 tbsp grated courgette (hidden veg!)

- [ ] Cherry tomatoes, cucumber
- [ ] Tomato dip

STEPS

1. Mix mince, flax egg, flour, courgette and seasoning.
2. Roll into 12 small balls.
3. Bake at 200 °C / 400 °F for 15 min. Cool.
4. Thread onto paper straws or blunt picks with halved tomatoes and cucumber.

Use leftovers

YOU NEED

- [ ] 1 cup leftover jollof rice
- [ ] 3–4 pieces baked chicken
- [ ] Watermelon cubes
- [ ] Carrot sticks

STEPS

1. Heat the jollof and chicken until piping hot in the morning.
2. Fill the thermos with boiling water for 5 min, empty it, then add the food — it stays warm until lunch.
3. Pack the watermelon and carrots separately.

Why it helps: A familiar home favourite makes lunchtime feel safe for sensitive eaters.

DAY 7

DIY “Lunchable” Box

10 min

YOU NEED

- [ ] 6 plain rice crackers (check: no corn)
- [ ] 4 slices homemade roast chicken
- [ ] 6 cubes dairy-free cheese
- [ ] Cucumber coins, grapes
- [ ] 2 Sunshine Bliss Balls

STEPS

1. Bliss balls: blitz 1 cup dates, ½ cup sunflower seeds and 2 tbsp coconut; roll into balls.
2. Arrange crackers, chicken, cheese and cucumber in rows.
3. Add grapes and bliss balls.

Why it helps: Kids build their own “cracker stacks” — and feel in charge of their food.

Allergy note: Shop-bought lunch kits contain dairy, wheat and nitrates. This one is clean.

The 30-Day Gentle Detox & Juicing Plan for the Whole Family

30 detox recipes

Gluten-free | Dairy-free | Corn-free | Egg-free | Caffeine-free | Tuna-free | Pork-free

One gentle glass a day.

BY

Tris Eliverson

BEFORE YOU START

The gentle way to detox

Detox should be gentle. Our bodies — especially little bodies — clean themselves best when we go slowly and support them every day.

Go slowly

- Children start with ¼–½ cup. Adults, 1 cup.
- One new drink at a time.
- Tummy ache, rash, poor sleep or crankiness? Use less and go slower.

Every day

- Drink plenty of water.
- Add seeds for fibre: chia, flax, pumpkin, sunflower, psyllium.
- Bounce on a trampoline or dance — it moves the lymph system.
- Lemon balm 2 hours before bed for better sleep.

Keep it fresh

- Wash fruit and vegetables well — pesticides are something we reduce.
- Drink juices within 30 minutes of making them.
- Use glass or stainless-steel cups.

Safety first

- No honey for babies under 1 year.
- Ask your doctor before herbs or supplements, especially with medication, pregnancy or breastfeeding.
- Sea moss is rich in iodine — check first if there is a thyroid condition.

Smoothie or juice?

Smoothies keep the fibre — more filling and great for bowels. **Juices** remove the fibre — lighter and quickly absorbed. No juicer? Blend, then strain through a clean cloth or sieve.

DAY 1 The Daily Detox Smoothie

Author's recipe
5 min

YOU NEED

- [ ] 1 celery stick
- [ ] ½ green apple
- [ ] Handful of blueberries
- [ ] 1 tbsp fresh coriander (cilantro)
- [ ] 1 tbsp fresh parsley
- [ ] 1 cup water (or more)

STEPS

1. Wash everything well.
2. Blend until smooth.
3. Drink fresh, in the morning.

Gentle daily cleanse · Bowels · Hydration · Antioxidants

Why it helps: Celery is the foundation. Apple adds binding fibre. Coriander and parsley are traditional cleansing herbs.

Go slowly: Children: start with half a cup. Detox should be slow and gentle.

DAY 2 Boosted Detox Smoothie

Author's recipe
5 min

YOU NEED

- [ ] Everything from Day 1
- [ ] ¼ tsp spirulina powder
- [ ] ¼ tsp lion's mane powder
- [ ] Brahmi (bacopa) — adults only

STEPS

1. Make the Day 1 smoothie.
2. Add the spirulina and lion's mane.
3. Blend again and drink fresh.

Brain & focus · Mould & yeast support · Energy

Why it helps: Spirulina is rich in iron and protein. Lion's mane is a mushroom traditionally used for focus.

Safety first: Ask your child's doctor before adding any herb or supplement, especially with medication.

DAY 3 Sea Moss & Black Seed Gut Soother

Author's recipe
5 min

YOU NEED

- [ ] 1 tsp sea moss gel (children) or 1 tbsp (adults)
- [ ] 1 ripe banana
- [ ] ½ cup pineapple
- [ ] 1 cup coconut water
- [ ] ½ tsp black seed oil (age 3+, 3 times a week)

STEPS

1. Blend everything until creamy.
2. Drink straight away.
3. Use black seed oil only 3 times a week.

Gut · Skin & eczema · Immunity

Why it helps: Sea moss and black seed oil are the author's go-to pair for gut troubles.

Safety first: Sea moss is rich in iodine. If there's a thyroid condition, ask your doctor first.

DAY 4 Lemon Balm Bedtime Tea

Author's recipe
10 min

YOU NEED

- [ ] 1 tbsp dried lemon balm (or 6 fresh leaves)
- [ ] 1 cup hot water
- [ ] Slice of lemon
- [ ] 1 tsp honey (optional — not under age 1)

STEPS

1. Pour hot water over the lemon balm.
2. Cover and steep 5–7 min, then strain.
3. Cool until warm. Add lemon and honey.
4. Drink about 2 hours before bedtime.

Sleep · Calm · Tummy

Why it helps: Lemon balm is the author's favourite herb for sleep — calming and naturally caffeine-free.

DAY 5 Morning Celery Juice

10 min

YOU NEED

- [ ] 1 bunch celery (makes about 1 cup)
- [ ] ½ green apple (optional, for children)

STEPS

1. Wash the celery well and chop.
2. Juice — or blend with ¼ cup water and strain.
3. Drink on an empty stomach, 15–30 min before breakfast.

Digestion · Hydration · Liver support

Why it helps: Celery is the foundation of the author's daily detox.

Go slowly: Children: start with ¼ cup mixed with apple. Build up slowly.

DAY 6 Watermelon Cucumber Cooler

5 min

YOU NEED

- [ ] 2 cups watermelon, cubed
- [ ] ½ cucumber
- [ ] 4 fresh mint leaves
- [ ] Squeeze of lime

STEPS

1. Blend everything until smooth.
2. Strain if you like it smooth.
3. Serve over ice.

Constipation · Hydration · Kidneys

Why it helps: Watermelon and cucumber are on the author's constipation list — full of water and gentle fibre.

DAY 7

Broccoli Sprout Mango Smoothie

5 min

YOU NEED

- [ ] Small handful of broccoli sprouts
- [ ] 1 cup mango, fresh or frozen
- [ ] ½ ripe banana
- [ ] 1 cup coconut water
- [ ] Squeeze of lime

STEPS

1. Rinse the sprouts well.
2. Blend everything until smooth.
3. Drink fresh.

Antioxidants · Brain support · Cell repair

Why it helps: Broccoli sprouts are top of the author's greens list. Mango hides the green taste.

Fun idea: Grow your own: soak broccoli seeds in a jar, rinse twice a day — ready in 5 days.
