WELCOME

# You are not alone

If you are holding this book, I know a little of your story. The child who eats only three foods. The nights that don't end. The family members who say “just give him bread, he'll be fine.” The quiet worry when the words haven't come yet.

I have stood in that kitchen too. **[ Your story goes here — a few lines in your own words. ]**

This book is the one I wish I had. No long science. No fancy ingredients you can't find. Just real food from our homes — yam, plantain, okro, rice, beans — made safe for your family, one day at a time.

You don't have to be perfect. You just have to start.

## With love, Tris Eliverson

# Where allergens hide

Many “safe-looking” foods hide gluten, dairy, corn or caffeine. Here is where they hide — especially in our African kitchens.

| Avoid | Where it hides |
|---|---|
| **Gluten** | Bread, semovita, wheat swallow, chin chin, puff-puff, meat pie, pasta, **Milo, Bournvita & Ovaltine** (barley malt), soy sauce, many stock cubes |
| **Dairy** | Peak/Three Crowns milk, butter, cheese, yogurt, ice cream, whey, casein, “non-dairy” creamers that contain casein |
| **Corn** | **Pap/ogi/akamu**, kenkey, banku, tuwo masara, ugali, pap (SA), custard powder, cornflour, popcorn, **baking powder** (corn starch), glucose syrup, xanthan gum, many gluten-free flour blends |
| **Egg** | Cakes, mayonnaise, some pasta, egg rolls, meat pies, many “gluten-free” breads and pancake mixes |
| **Caffeine** | Tea (black & green), coffee, matcha, cola, energy drinks, **kola nut**, chocolate & cocoa, Milo |
| **Tuna** | Canned tuna, tuna salad, some sandwiches, sushi and fish pies |
| **Pork** | Bacon, ham, sausages, lard, gelatine (sweets & jelly), some suya |

**The 10-second label rule**

Turn the pack over. Read the ingredients **every time** — brands change their recipes. If you can't pronounce it, or it says “may contain”, leave it on the shelf.

# 5 steps to healing the gut

When the gut is out of balance, everything feels harder — sleep, moods, toilet troubles and picky eating. These 5 steps are the heart of this book.

1

### Remove the irritants

Dairy, gluten, fried food, cookies, bread, processed food, refined sugar, corn, pap and garri.
**Swap:** dairy → coconut; flour → tapioca, potato or buckwheat flour.

2

### Support digestion with healing nutrients

Zinc and magnesium from leafy vegetables and pumpkin seeds.

3

### Repair the gut

Keep the gut hydrated and nourished: berries, psyllium husk, okro stew, egusi soup (no tripe or intestine).

4

### Knock down the bad bugs

Garlic, onions, rosemary, thyme, potatoes, carrots, courgette, pumpkin, coconut yogurt, green banana and gluten-free oats.

5

### [ Step 5 — waiting for your notes ]

Send me the fifth step and it goes here.

**Picky eating is not bad behaviour**

A child who eats only three foods is often a child whose nervous system feels unsafe. Go gently. One new food at a time, next to a food they already love.

WEEK 1

# Day 1

*"Small changes, one plate at a time. You are doing better than you think."*

## BREAKFAST Boiled Yam with Ugu & Tomato Sauce

30 min

**YOU NEED**

- [ ] ½ medium yam, peeled & sliced
- [ ] 2 cups ugu (or spinach), chopped
- [ ] 3 fresh tomatoes, chopped
- [ ] 1 onion, sliced
- [ ] 2 tbsp unrefined red palm oil
- [ ] ¼ tsp ground crayfish (optional)
- [ ] Pinch of salt

**STEPS**

1. Boil the yam in salted water for 15–20 min until soft.
2. Warm the palm oil gently — don't let it smoke. Add onion, cook 2 min.
3. Add tomatoes and crayfish. Cook 5 min.
4. Stir in the ugu, cook 2 min, then turn off the heat.
5. Spoon the sauce over the yam.

**Why it helps:** Yam gives slow, steady energy. Ugu is rich in iron and magnesium.

**Swap it:** No yam? Use sweet potato. No ugu? Use spinach, kale or sukuma wiki.

## LUNCH Okro Soup with Chicken & Pounded Yam

40 min

**YOU NEED**

- [ ] 500 g chicken pieces
- [ ] 15 fresh okro, chopped
- [ ] 1 cup ugu or spinach
- [ ] 1 onion, 2 ata rodo peppers
- [ ] 1 tbsp ground crayfish
- [ ] 2 tbsp red palm oil, salt
- [ ] Pounded yam or amala, to serve

**STEPS**

1. Season chicken with onion and salt. Cook in 2 cups water for 20 min.
2. Add palm oil, pepper and crayfish. Cook 5 min.
3. Add okro and cook only 3–4 min so it stays green.
4. Stir in the greens and turn off the heat.
5. Serve with pounded yam.

**Why it helps:** Okro is soft and gentle on the gut and helps keep things moving.

**Kid tip:** Picky eater? Blend the okro smooth so there are no "slimy bits" to see.

## DINNER Coriander Pepper Fish & Green Plantain

35 min

**YOU NEED**

- [ ] 4 small mackerel (titus) or tilapia
- [ ] 3 green (unripe) plantains
- [ ] 1 handful fresh coriander
- [ ] 2 garlic cloves, 1 small onion
- [ ] 1 scotch bonnet (skip for kids)
- [ ] 1 tbsp olive oil, juice of 1 lemon, salt

**STEPS**

1. Blend coriander, garlic, onion, pepper, oil, lemon and salt to a paste.
2. Rub the paste over the fish. Rest 15 min.
3. Bake on parchment at 200 °C / 400 °F for 20–25 min (no foil).
4. Meanwhile, peel and boil the plantains for 20 min.
5. Serve with sliced cucumber.

**Why it helps:** Small fish carry far less mercury than tuna. Green plantain feeds good gut bacteria.

## DAY 1 Sweet Potato Chicken Bites Box

Nut-free
Prep the night before

**YOU NEED**

- [ ] 6–8 sweet potato chicken bites
- [ ] Cucumber sticks
- [ ] Mango slices
- [ ] Small pot of coconut yogurt (dip)

**STEPS**

1. Mash 1 boiled sweet potato with 1 cup shredded cooked chicken, pinch of salt & thyme.
2. Stir in 2 tbsp tapioca flour. Roll into small balls and flatten.
3. Bake at 200 °C / 400 °F for 20 min. Cool and refrigerate.
4. Morning: pack the bites, cucumber, mango and the dip.

**Why it helps:** Protein + slow carbs keep energy steady through the school day.

**Parent tip:** Pack one food they already love next to the new one. No pressure.

## DAY 2 Mini Jollof Rice & Chicken Box

Nut-free
Use leftovers

**YOU NEED**

- [ ] 1 cup leftover jollof rice
- [ ] 3–4 pieces baked chicken
- [ ] Carrot sticks
- [ ] Watermelon cubes

**STEPS**

1. Warm the jollof rice and chicken in the morning.
2. Pack into a thermos to keep warm until lunch.
3. Add carrot sticks and watermelon in a separate section.

**Why it helps:** A familiar home favourite makes lunchtime feel safe for sensitive eaters.

**Time saver:** Cook extra jollof at dinner — tomorrow's lunch is already done.

## DAY 1 The Daily Detox Smoothie

Author's recipe
5 min

**YOU NEED**

- [ ] 1 celery stick
- [ ] ½ green apple
- [ ] Handful of blueberries
- [ ] 1 tbsp fresh coriander (cilantro)
- [ ] 1 tbsp fresh parsley
- [ ] 1 cup water (or more)

**STEPS**

1. Wash everything well.
2. Blend until smooth.
3. Drink fresh, in the morning.

Gentle daily cleanse · Bowels · Hydration · Antioxidants

**Why it helps:** Celery is the base. Apple adds fibre. Coriander and parsley are traditional cleansing herbs.

**Go slowly:** Children: start with half a cup. Detox should be slow and gentle.

## DAY 2 Boosted Detox Smoothie

Author's recipe
5 min

**YOU NEED**

- [ ] Everything from Day 1
- [ ] ¼ tsp spirulina powder
- [ ] ¼ tsp lion's mane powder
- [ ] Brahmi (bacopa) — adults only

**STEPS**

1. Make the Day 1 smoothie.
2. Add the spirulina and lion's mane.
3. Blend again and drink fresh.

Brain & focus · Mould & yeast support · Energy

**Why it helps:** Spirulina is rich in iron and protein. Lion's mane is a mushroom traditionally used for focus.

**Safety first:** Ask your child's doctor before adding any herb or supplement, especially with medication.
