WELCOME

You are not alone

Dear Mama, dear Papa,

If you are holding this book, I already know a little of your story - because it is my story too. **I am an autism mum.** I know the child who eats only three foods. The nights that don't end. The family members who say “just give them bread, they'll be fine.” The quiet ache when the words haven't come yet.

When I changed what went on my child's plate - taking out gluten, dairy, corn, eggs and processed sugar, cooking real food from scratch, and adding a gentle detox drink each day - things began to change. Slowly at first. Then I saw a **real, significant improvement** in my child. I could not keep these recipes to myself.

This book holds the meals, drinks and routines that helped my family. No long science. No fancy ingredients you can't find. Just real food from our homes - yam, plantain, okro, rice and beans - made safe, one day at a time.

Every child is different, and food is not a replacement for your doctor. But it is a beautiful place to start - and you don't have to start alone.

You don't have to be perfect. You just have to begin. ♥

With love, Tris Eliverson

How to use this book

This book is made to be easy. No long science, no fancy equipment - just real food, one day at a time.

1. **Read the short chapters first**
They explain *why* we cook this way — gut health, foods to enjoy, foods to leave out, and simple daily habits.

2. **Make the Kitchen Basics on a Sunday**
Seasoning mix, bread, flatbread and granola. They are used all month and save you hours.

3. **Shop once a week**
Each week starts with a tick-box shopping list. Cross off what you already have.

4. **Follow the day pages**
Every day has breakfast, lunch and dinner. Swap days around freely - just keep the foods safe.

5. **Go gently**
Change is hard for children who love sameness. Keep one “safe” food on every plate and offer new foods next to it. No pressure, no battles.

Every recipe in this book is free from

Gluten · Dairy · Corn · Egg · Caffeine · Tuna · Pork · Processed sugar - and baked, boiled or steamed instead of deep-fried. Recipes serve a family of 4 (2 adults, 2 children).

This book shares food and lifestyle ideas from one mother's experience. It is not medical advice and does not replace your doctor, dietitian or therapist. Always check with your child's doctor before making big diet changes or giving herbs or supplements, especially if your child takes medication.

PART 1

Understanding healing food

Short, simple chapters on why we cook this way - from the author's own notes and experience.

KNOW BEFORE YOU SHOP

Where allergens hide

Many “safe-looking” foods hide gluten, dairy, corn, caffeine or processed sugar. Here is where they hide - especially in our African kitchens.

Avoid	Where it hides
Gluten	Bread, semovita, wheat swallow, chin chin, puff-puff, meat pie, pasta, **Milo, Bournvita & Ovaltine** (barley malt), soy sauce, many stock cubes
Dairy	Peak/Three Crowns milk, butter, cheese, yogurt, ice cream, whey, casein, “non-dairy” creamers that contain casein
Corn	**Pap/ogi/akamu**, kenkey, banku, tuwo masara, ugali, pap (SA), custard powder, cornflour, popcorn, **baking powder** (corn starch), glucose syrup, xanthan gum, many gluten-free flour blends
Egg	Cakes, mayonnaise, some pasta, egg rolls, meat pies, many “gluten-free” breads and pancake mixes
Caffeine	Tea (black & green), coffee, matcha, cola, energy drinks, **kola nut**, chocolate & cocoa, Milo
Tuna	Canned tuna, tuna salad, some sandwiches, sushi and fish pies
Processed sugar	White & brown sugar, glucose & corn syrup, fizzy drinks, sweetened juice drinks, biscuits, sweets, breakfast cereals, ketchup, flavoured yogurt, Milo
Pork	Bacon, ham, sausages, lard, gelatine (sweets & jelly), some suya

The 10-second label rule

Turn the pack over. Read the ingredients **every time** - brands change their recipes. If you can't pronounce it, or it says “may contain”, leave it on the shelf.

5 steps to healing the gut

When the gut is out of balance, everything feels harder - sleep, moods, toilet troubles and picky eating. These 5 steps are the heart of this book.

1

Remove the irritants

Dairy, gluten, fried food, cookies, bread, processed food, processed sugar, corn and pap. **Swap:** dairy → coconut; flour → tapioca, potato or buckwheat flour.

2

Support digestion with healing nutrients

Zinc and magnesium from leafy vegetables and pumpkin seeds.

3

Repair the gut

Keep the gut hydrated and nourished: berries, psyllium husk, okro stew, egusi soup (no tripe or intestine).

4

Knock down the bad bugs

Garlic, onions, rosemary, thyme, potatoes, carrots, courgette, pumpkin, coconut yogurt, green banana and gluten-free oats.

5

Rebuild & protect — keep the good going

Feed the good bacteria every day: green banana, plantain, onions, garlic, beans and gluten-free oats, plus a spoon of coconut yogurt. Eat at regular times, drink water, sleep well and keep moving. Bring foods back **one at a time**, and keep a simple food & mood diary so you can see what helps. Ask your doctor whether a probiotic is right for your child.

Picky eating is not bad behaviour

A child who eats only three foods is often a child whose nervous system feels unsafe. Go gently. One new food at a time, next to a food they already love.

BUILD EVERY PLATE

Foods to enjoy

Healing food is not about what we take away - it's about what we add. Build every plate around these.

1. Root vegetables first

Squash, sweet potato, pumpkin and yam are the best carbs for our children. They are packed with plant nutrients, give slow natural sugars and fibre, and support the body's natural cleansing.

2. Green leafy vegetables

Ugu, efo, kale, spinach and sukuma are full of anti-inflammatory goodness and help keep the body's elimination pathways open. **Broccoli sprouts are top of the list.**

3. Wild blueberries & mangoes

All fruits are great, but these two are the author's favourites — rich in antioxidants that support the brain and the body under stress.

4. Coriander & parsley

Traditional cleansing herbs. Add them generously to soups, stews and smoothies — and always season fish with coriander.

The cooking oil scorecard

The author's ranking of the healthiest oils to cook with (out of 10). Use these instead of vegetable oil blends.

WHAT WE LEAVE OUT

Foods & things to avoid

Here is what we leave out of every recipe in this book — and why.

We leave out	Why
Gluten	Many children with autism and gut trouble feel better without it. It can irritate a sensitive gut.
Dairy	High in fat and sugar. Lactose is hard to digest for many children, and the milk protein can inflame the gut.
Corn	A common hidden allergen — in pap, custard, baking powder, syrups and most “gluten-free” products.
Eggs	One of the most common food allergens in children. In the author's experience, removing them made a real difference.
Processed sugar & junk	Cookies, cakes and sweets mix fat and sugar, feed unhelpful gut bugs and cause energy spikes and crashes.
Caffeine	Tea, coffee, matcha, chocolate and energy drinks push up the stress hormone cortisol and disturb sleep.
Pork	High in fat, and processed pork (bacon, ham, sausages) contains nitrates.
Tuna & trout	Big fish high up the food chain collect more mercury. We choose small fish — and season them with coriander.

Clean home checklist

- ✓ Swap foil for parchment paper - foil can leach aluminium into food.
- ✓ Replace scratched non-stick pans with stainless steel, cast iron or ceramic.
- ✓ Wash fruit and vegetables well to reduce pesticides.
- ✓ Check make-up, deodorant and skin creams - some contain heavy metals.
- ✓ Choose fragrance-free, simple products for your child.
- ✓ Cook from scratch and cut down on over-processed food.

EVERY DAY

Healing habits

Food is only part of healing. These small daily habits from the author's own routine make a big difference.

Better sleep

- Lemon balm tea about 2 hours before bed — the author's favourite sleep herb.
- Same bedtime every night, dim lights, no screens for the last hour.

Easy bowels

- Plenty of water every day.
- Add seeds: chia, flax, pumpkin, sunflower, psyllium husk.
- Fruits: celery, cucumber, mango, blueberry, watermelon.

Move every day

- Bouncing on a trampoline gets the lymphatic system moving.
- Dancing, jumping and outdoor play all count.

Detox slowly

- Go gently. Too much, too fast can make children feel worse.
- See the Healing Sips bonus book for one gentle drink a day.

Energy & recovery

Every cell has tiny “batteries” called mitochondria. When they are drained - by a heavy load on the body, missing nutrients, stress or toxins - children can struggle more.

Signs of low energy reserves

- Poor sleep
- Bad reactions when detox is tried
- Going backwards after an illness
- Speech delay
- Tiredness

Recharge the batteries

- **Get out in the sun** every morning.
- **Keep them moving** - the trampoline is perfect.
- **Protect sleep** like gold.
- Eat colourful, nutrient-rich food every day.

FROM THE AUTHOR'S JOURNEY

Food steps that may support speech

These are the food steps the author took while supporting her own child's speech. Every child is different — but many parents find a calmer gut helps everything else.

1 **Change the plate**

Move towards more plant-based meals. Cut gluten, dairy, processed food and processed sugar.

2 **Add brain-friendly vegetables**

Squash, leafy greens, kale, cabbage and **broccoli sprouts** — rich in sulforaphane.

3 **Smart swaps**

Lentil pasta instead of wheat pasta. Buckwheat flour for bread.

4 **Gentle support**

I used **lion's mane and spirulina**, and found them helpful once my child began to talk. For gut troubles, **sea moss with black seed oil** (½ tsp, 3 times a week, age 3+).

Food is a support, not a cure. Keep going with speech therapy, and always ask your child's doctor before starting any herb or supplement.

NATURAL SUPPORT

Herbs by symptom

Herbs many parents use alongside a healing diet. This is my personal guide.

Symptom	Herbs parents commonly use
Stimming (vocal, hand flapping, rocking)	Lion's mane, brahmi, ashwagandha
Sensory-seeking behaviour	Lion's mane, brahmi
Sleep	Lemon balm, ashwagandha, lion's mane
Hyperactivity	Lemon balm, ashwagandha
Picky eating	Sea moss, lion's mane
Constipation / diarrhoea	Black seed oil, sea moss, milk thistle
Vomiting / reflux	Brahmi, ashwagandha, sea moss
Frequent infections	Astragalus, black seed oil, sea moss
Eczema	Sea moss, black seed oil
Mould detox	Astragalus, spirulina, black seed oil, sea moss

Safety first — please read

- Talk to your child's doctor before giving any herb, especially if they take medication.
- Many herbs (like ashwagandha, licorice and milk thistle) are not well studied in young children.
- Sea moss is rich in iodine - check first if there is any thyroid condition.
- Start one herb at a time, with a small amount, and watch closely.

TALK TO YOUR DOCTOR

Tests worth asking about

If your child shows some of these signs, these are tests you can ask your doctor about.

Test	Signs that make it worth asking
Ferritin & full blood count	Tiredness, pale skin, clumsiness, developmental delay, frequent infections, picky eating, unexplained behaviour changes
Iron studies	Hyperactivity, poor sleep, emotional ups and downs, restlessness, headaches, restricted diet
Vitamin B12	Speech delay, clumsiness, developmental plateau, vegetarian or low-meat diet, gut problems
Thyroid (TSH ± free T4)	Hyperactivity or very low energy, mood swings, constipation, growth worries, family history, speech delay
Coeliac screen (tTG-IgA + total IgA)	Bloating, changing stools, low iron, behaviour worse after meals, family autoimmune history, slow growth
CRP (± ESR)	Ongoing tummy pain or gut problems, unexplained tiredness, poor growth, chronic diarrhoea
Vitamin D	Little time outdoors, autoimmune family history, low mood
Liver function & albumin	Gut problems, poor absorption, tiredness, regular medication, growth worries
Metabolic panel	Tiredness, great thirst, past jaundice, frequent weeing, sleep issues, energy spikes and crashes
Zinc & copper	Often not offered as standard — may need a private lab
Fasting glucose & insulin	Huge appetite, sleep problems, strong reaction to carbohydrates

Your doctor will decide which tests are right for your child. Take this page to your appointment.

PART 2

The 30-day plan

Kitchen basics, your month at a glance, weekly shopping lists and 90 family meals.

MAKE ONCE, USE ALL MONTH

Kitchen basics

BASIC Flax "Egg" (replaces 1 egg)

5 min

YOU NEED

- [ ] 1 tbsp ground flaxseed
- [ ] 3 tbsp water

STEPS

1. Stir the flaxseed and water together.
2. Leave for 5 minutes until thick, like egg white.
3. Use in pancakes, muffins and meatballs in place of 1 egg.

Why it helps: Binds food just like egg, and adds fibre and omega-3.

BASIC Healing Seasoning Mix (replaces stock cubes)

15 min + 4–6 hrs drying

YOU NEED

- [ ] 1 cup cooked chicken breast or lean beef, shredded (no skin, no fat)
- [ ] 2 tbsp onion powder, 1 tbsp garlic powder
- [ ] 1 tbsp dried thyme, 1 tsp ground ginger
- [ ] 1 tbsp ground crayfish (optional)
- [ ] 1 tsp white pepper, 1 tsp pure curry powder
- [ ] 1 tbsp sea salt

STEPS

1. Spread the cooked meat thinly on a parchment-lined tray.
2. Dry in the oven on its lowest setting (70–80 °C / 160–175 °F), door slightly open, for 4–6 hrs until completely dry and crumbly.
3. Cool, then blend to a fine powder.
4. Add all the spices and blend again until even.
5. Store in an airtight jar in the fridge for up to 1 month, or freeze for 3 months. Use 1–2 tsp wherever a recipe says "seasoning".

Why it helps: Real chicken or beef flavour like a stock cube — without the hidden wheat, corn starch, MSG or sugar.

Good idea: Make a chicken jar and a beef jar. Chicken for soups and rice, beef for stews and egusi.

BASIC Soft Cassava Flatbread (wraps, pizza & pinwheels)

20 min · makes 6

YOU NEED

- [ ] 1 cup (130 g) cassava flour
- [ ] ¾ cup warm water
- [ ] 2 tbsp olive oil
- [ ] ½ tsp salt

STEPS

1. Mix everything into a soft dough. Rest 5 min.
2. Divide into 6 balls (or 2 for pizza bases).
3. Press thin between two sheets of parchment paper.
4. Cook in a dry hot pan 1–2 min each side until spotty.
5. Stack under a clean towel to stay soft.

Why it helps: A gluten-free, corn-free, egg-free wrap you can trust.

BASIC

Easy Buckwheat Bread (no yeast, no egg)

1 hr 10 min · 1 loaf

YOU NEED

- [ ] 2 cups (240 g) buckwheat flour
- [ ] ½ cup (60 g) tapioca flour
- [ ] 2 tbsp psyllium husk powder
- [ ] 1 tsp baking soda, 1 tsp salt
- [ ] 1½ cups warm water
- [ ] 2 tbsp olive oil
- [ ] 1 tbsp apple cider vinegar

STEPS

1. Heat oven to 180 °C / 350 °F. Line a loaf tin with parchment.
2. Whisk the dry ingredients together.
3. Add water, oil and vinegar. Mix to a thick, sticky dough. Rest 5 min.
4. Smooth into the tin with wet hands. Bake 55–60 min.
5. Cool completely before slicing — it firms up as it cools.

Why it helps: Buckwheat bread is on the author's speech-support list. Psyllium holds it together instead of egg.

Time saver: Slice, then freeze. Toast straight from the freezer.

BASIC

Crunchy Nut-Free Granola

30 min

YOU NEED

- [ ] 2 cups certified gluten-free oats
- [ ] ½ cup pumpkin seeds
- [ ] ½ cup sunflower seeds
- [ ] ¼ cup coconut flakes
- [ ] 3 tbsp melted coconut oil
- [ ] 3 tbsp maple syrup or honey
- [ ] 1 tsp cinnamon

STEPS

1. Heat oven to 160 °C / 320 °F. Line a tray with parchment.
2. Mix everything and spread thin.
3. Bake 20 min, stirring halfway.
4. Cool completely — it crisps as it cools. Store in a jar.

Why it helps: Seeds give zinc and magnesium — step 2 of healing the gut.

Day 1

"Small changes, one plate at a time. You are doing better than you think."

BREAKFAST Fluffy Banana Buckwheat Pancakes

20 min

YOU NEED

- [ ] 1 cup buckwheat flour
- [ ] 1 ripe banana, mashed
- [ ] 1 flax egg (see Basics)
- [ ] 1 cup coconut milk
- [ ] 1 tsp baking soda + 1 tsp lemon juice
- [ ] ½ tsp cinnamon, pinch of salt
- [ ] Coconut oil, for the pan

STEPS

1. Mix the banana, flax egg and coconut milk.
2. Stir in the flour, cinnamon, salt and baking soda, then the lemon juice.
3. Heat a little oil in a pan on medium-low.
4. Cook small pancakes 2 min until bubbles appear, flip, 1 more min.
5. Top with berries and a drizzle of maple syrup.

Why it helps: Buckwheat is naturally gluten-free and full of magnesium.

Good to know: Baking soda + lemon makes pancakes rise without corn-starch baking powder.

LUNCH Okro Soup with Chicken & Pounded Yam

40 min

YOU NEED

- [ ] 500 g chicken pieces
- [ ] 15 fresh okro, chopped
- [ ] 1 cup ugu or spinach
- [ ] 1 onion, 2 ata rodo peppers
- [ ] 1 tbsp ground crayfish

STEPS

1. Season chicken with onion and seasoning. Cook in 2 cups water for 20 min.
2. Add palm oil, pepper and crayfish. Cook 5 min.
3. Add okro and cook only 3–4 min so it stays green.
4. Stir in the greens and turn off the heat.
5. Serve with pounded yam.

Why it helps: Okro is soft and gentle on the gut and helps keep things moving.

Kid tip: Picky eater? Blend the okro smooth so there are no "slimy bits" to see.

DINNER Mama's Pasta with Meat & Tomato Sauce

Author's family favourite
40 min

YOU NEED

- [ ] 400 g rice pasta or gluten-free pasta (or lentil pasta)
- [ ] 500 g beef mince

2. Add the mince and brown it, breaking it up.
3. Stir in the carrot, tomatoes and herbs. Simmer 20 min.
4. Cook the pasta as the pack says. Drain.
5. Toss the pasta through the sauce and serve.

Why it helps: A dinner my child asks for again and again — simple, filling and completely safe.

Kid tip: Blend the sauce smooth if your child doesn't like to see "bits".

WEEK 1

Day 2

Today's habit: 10 minutes of bouncing or dancing — it gets the lymph system moving.

BREAKFAST Blueberry Banana Breakfast Cookies

25 min · makes 12

YOU NEED

- [ ] 3 ripe bananas, mashed
- [ ] 2 cups certified gluten-free oats
- [ ] 1 flax egg (see Basics)

- [ ] 1 tsp cinnamon, pinch of salt

STEPS

1. Heat oven to 180 °C / 350 °F. Line a tray with parchment.

4. Scoop 12 mounds onto the tray and flatten slightly.
5. Bake 15–18 min until golden. Serve warm with coconut yogurt.

Why it helps: Cookies for breakfast — made only from fruit, oats and seeds. Slow energy, fibre and zinc.

Time saver: Make a double batch and freeze. Warm for 20 seconds on busy mornings.

LUNCH Chicken Burrito Bowl

35 min

YOU NEED

- [ ] 2 cups rice
- [ ] 600 g chicken thighs
- [ ] 1 tsp each cumin & paprika, ½ tsp garlic powder
- [ ] 1 tin black beans, rinsed
- [ ] 2 avocados, sliced
- [ ] 3 tomatoes + ½ red onion + coriander (salsa)
- [ ] 2 limes, olive oil, salt

2. Rub chicken with the spices, oil and salt. Bake at 200 °C / 400 °F for 25 min, then slice.
3. Warm the beans with a pinch of salt.
4. Chop tomatoes, onion and coriander with lime juice for salsa.
5. Build bowls: rice, beans, chicken, avocado, salsa.

Why it helps: Beans and avocado bring fibre and healthy fats that keep little tummies full.

Allergy note: Shop-bought bowls usually add corn — this one leaves it out.

DINNER Coriander Pepper Fish & Green Plantain

35 min

YOU NEED

- [ ] 4 small mackerel (titus) or tilapia
- [ ] 3 green (unripe) plantains
- [ ] 1 handful fresh coriander
- [ ] 2 garlic cloves, 1 small onion
- [ ] 1 scotch bonnet (skip for kids)
- [ ] 1 tbsp olive oil, juice of 1 lemon, salt

STEPS

1. Blend coriander, garlic, onion, pepper, oil, lemon and salt to a paste.
2. Rub the paste over the fish. Rest 15 min.
3. Bake on parchment at 200 °C / 400 °F for 20–25 min (no foil).
4. Meanwhile, peel and boil the plantains for 20 min.
5. Serve with sliced cucumber.

Why it helps: Small fish carry far less mercury than tuna. Coriander is a traditional cleansing herb.

WEEK 1

- [ ] 2 cups certified gluten-free oats

STEPS

1. Stir oats, coconut milk, chia, cinnamon and maple together.
2. Spoon into 4 jars or cups.
3. Cover and chill overnight.
4. In the morning, top with mango and eat cold.

Why it helps: Chia and oats are gentle fibre for regular, easy bowels.

Swap it: Can't have oats? Use millet or buckwheat flakes instead.

STEPS

1. Season chicken and bake at 200 °C / 400 °F for 40 min.
2. Blend tomatoes, peppers, onion and scotch bonnet.
3. Fry tomato paste in oil 3 min, add the blend and cook 15 min until thick.
4. Add spices, stock and rinsed rice. Cover tightly and cook on low 25–30 min.

WELCOME

A lunch box made with love

Dear Mama, dear Papa,

I know the feeling of packing a lunch box and wondering if it will come home untouched. I know the worry of sending your child to school with allergies, and the little ache when everyone else has biscuits and crisps.

These 30 lunch boxes are the ones that work in my home. They are safe, simple and fun — familiar Nigerian favourites next to nuggets, pinwheels and pizza bites that children are proud to open in front of their friends.

Every box is free from gluten, dairy, corn, eggs, caffeine, tuna, pork, processed sugar **and nuts**, so it is school-safe.

Pack it with love. That's the most important ingredient. ♥

BEFORE YOU START

7 golden lunch box rules

A good lunch box is safe, simple and fun. Follow these 7 golden rules and lunchtime gets easier for everyone.

1. **Pack the night before**
   Mornings are busy. Pack everything except hot food the evening before.

2. **One safe food + one new food**
   Always include a food your child already loves. Put the new food beside it — no pressure.

3. **Keep it cold — or hot**
   Use an ice pack for cold boxes and a thermos for warm food like jollof or soup.

4. **Every box is nut-free**
   Most schools are nut-free. We use sunflower-seed butter instead of peanut butter.

5. **Tell the teacher**
   Give the school a copy of the allergy card from the Printables pack.

6. **Small and colourful wins**
   Small portions, bright colours and fun shapes. Cookie cutters are your best friend.

7. **Let them choose**
   Offer two choices: “Nuggets or pinwheels tomorrow?” Children eat what they choose.

FOR PICKY EATERS

The picky eater playbook

If your child eats only a few foods, you are not doing anything wrong. Many children — especially autistic children — feel safer with food that is predictable. These gentle tricks help.

1. Food chaining

Start from a food they love and change **one small thing** at a time:
shop nuggets → homemade nuggets → nuggets with paprika → chicken strips → chicken skewers.

2. Same food, new shape

Cut sandwiches, fruit and flatbread with cookie cutters. Stars, hearts and dinosaurs make the same food feel new.

3. The learning portion

Put one tiny piece of a new food in its own section. No need to eat it — just let it sit there. It can take 15 or more tries.

4. Respect the senses

Keep foods separate, offer dips, and notice what your child prefers: crunchy or soft, warm or cold, smooth or lumpy.

5. Let them help

Children eat what they choose, wash, pack or build. Offer two choices: “Pinwheels or nuggets tomorrow?”

6. Praise the try

Celebrate touching, smelling or licking a new food — not just eating it. Use the “I tried it!” chart in Healing Printables.

When to ask for extra help

If your child eats fewer than 20 foods, is losing weight, gags or vomits often, or mealtimes cause great distress, ask your doctor about a feeding therapist. You don't have to do this alone.

WELCOME

One gentle glass a day

Dear Mama, dear Papa,

When I started my child's healing journey, one of the simplest things I did was add **one gentle drink a day**. A green smoothie in the morning. A calming cup of lemon balm before bed. Slowly, gently, things began to shift — and I saw a real, significant improvement in my child.

This book holds those drinks: my own daily detox smoothie first, then 29 more juices, smoothies and tonics for the whole family. Each one tells you what it is good for, so you can choose the right glass for the day.

Please go slowly. Detox is not about doing more — it's about doing a little, every day, with love.

One gentle glass a day. ♥

BEFORE YOU START

The gentle way to detox

Detox should be gentle. Our bodies — especially little bodies — clean themselves best when we go slowly and support them every day.

Go slowly

- Children start with ¼–½ cup. Adults, 1 cup.
- One new drink at a time.
- Tummy ache, rash, poor sleep or crankiness? Use less and go slower.

Every day

- Drink plenty of water.
- Add seeds for fibre: chia, flax, pumpkin, sunflower, psyllium.
- Bounce on a trampoline or dance — it moves the lymph system.
- Lemon balm 2 hours before bed for better sleep.

Keep it fresh

- Wash fruit and vegetables well — pesticides are something we reduce.
- Drink juices within 30 minutes of making them.
- Use glass or stainless-steel cups.

Safety first

- No honey for babies under 1 year.
- Ask your doctor before herbs or supplements, especially with medication, pregnancy or breastfeeding.
- Sea moss is rich in iodine — check first if there is a thyroid condition.

Smoothie or juice?

Smoothies keep the fibre — more filling and great for bowels. **Juices** remove the fibre — lighter and quickly absorbed. No juicer? Blend, then strain through a clean cloth or sieve.

- Thicker paper or card works best for allergy cards.

Make them last

- Laminate the cheat sheet and planners, or slip them into plastic sleeves.
- Use a dry-wipe pen and reuse them every week.
- Keep allergy cards in the school bag, car and your purse.

Share them

Give a copy of the allergy card and the safe-foods list to teachers, nannies, grandparents and anyone who feeds your child. The more people who know, the safer your child is.

WELCOME

Every child deserves a slice

Dear Mama, dear Papa,

Birthdays, owambes, Christmas, Eid, school parties — they should be full of joy. But when your child has allergies, they can be full of worry instead. Will there be anything they can eat? Will they feel left out?

This little book is my answer. A real birthday cake your child can blow candles out on. Party food the whole room will enjoy — not "special" food that looks different. And a simple plan for every party, church event and day out.

Every recipe is free from gluten, dairy, corn, eggs, caffeine, tuna, pork, processed sugar and nuts.

Every child deserves a slice. ♥

A real birthday cake

Every child deserves to blow out candles on a cake they can actually eat.

BIRTHDAY

Celebration Vanilla Berry Cake

1 hr + cooling · one 20 cm / 8 in cake

YOU NEED

- [ ] 1 cup (140 g) brown rice flour
- [ ] ½ cup (60 g) tapioca flour + ½ cup (80 g) potato starch
- [ ] 1 tsp psyllium husk powder
- [ ] ½ cup pure maple syrup
- [ ] 1 tsp baking soda, ¼ tsp salt
- [ ] ¾ cup coconut milk or water
- [ ] ⅓ cup light olive or avocado oil
- [ ] 1 tbsp apple cider vinegar + 1 tsp pure vanilla powder

STEPS

1. Heat oven to 180 °C / 350 °F. Line a round tin with parchment.
2. Whisk all the dry ingredients together.
3. Add the milk, oil, vinegar and vanilla. Mix just until smooth.
4. Bake 30–35 min until a skewer comes out clean. Cool completely.
5. Frost with chilled whipped coconut cream + 1 tbsp maple syrup. Top with berries and candles!

Why it helps: No egg, dairy, gluten, corn, nuts or processed sugar — every child at the party can have a slice.

Cupcakes: Makes 12 cupcakes too — bake 18–20 min. Many vanilla extracts use corn alcohol, so use pure vanilla powder.

Fluffy coconut frosting

- Chill 2 tins of full-fat coconut milk overnight.
- Scoop out only the thick cream on top.
- Whisk 2 min with 1 tbsp maple syrup until fluffy.
- Keep the cake in the fridge until party time.

Decorate without food colouring

- **Pink:** a spoon of beetroot juice or blended strawberries.
- **Yellow:** a pinch of turmeric.
- **Purple:** blended blueberries.
- Top with fresh berries, mango stars and coconut flakes.

Freeze slices for school birthdays — your child will always have their own cake when classmates celebrate.

3. Stir in flour, nutmeg, salt and baking soda, then the lemon juice.
4. Spoon into the tin. Bake 15–18 min until golden.
5. Dust with a little cinnamon while warm — the plantain is sweet enough.

Why it helps: Puff-puff without wheat, egg or deep frying — so your child can join the party plate.

PARTY Crunchy Cassava Chin Chin

40 min

YOU NEED

- [ ] 2 cups cassava flour
- [ ] 3 tbsp pure maple syrup
- [ ] ½ tsp ground nutmeg, pinch of salt
- [ ] ⅓ cup solid coconut oil
- [ ] About ⅓ cup coconut milk

STEPS

1. Heat oven to 180 °C / 350 °F. Line 2 trays with parchment.
2. Mix flour, nutmeg and salt. Rub in the coconut oil with your fingers.
3. Add the maple syrup, then coconut milk a little at a time, to make a firm dough.
4. Roll out 5 mm thick and cut into small squares.
5. Bake 15–20 min, stirring once, until golden. They crisp as they cool.

Why it helps: The chin chin every Nigerian child knows — with no wheat, no egg, no processed sugar and no deep frying.

Picky eater trick: Let your child cut the squares with a blunt knife. Kids eat what they make.

PARTY Nut-Free Chicken Suya Skewers

YOU NEED

- [ ] 600 g chicken breast, cut into strips
- [ ] 2 tsp paprika, 1 tsp ground ginger
- [ ] 1 tsp garlic powder, 1 tsp onion powder
- [ ] ½ tsp cayenne (less for kids), 1 tsp salt
- [ ] 2 tbsp olive oil

2. Thread onto soaked wooden skewers.
3. Bake at 220 °C / 425 °F for 12–15 min, turning once.

PARTY Rainbow Fruit Wands

15 min

YOU NEED

- [ ] Strawberries, pineapple, mango, kiwi, grapes, blueberries
- [ ] Watermelon slices
- [ ] Paper straws or blunt skewers
- [ ] Star cookie cutter

STEPS

1. Cut fruit into chunks, in rainbow order.
2. Cut stars from the watermelon slices.
3. Thread the fruit onto straws and top each with a star.
4. Chill until party time.

Why it helps: Children who won't touch a fruit bowl will happily eat a magic wand.

PARTY Zobo Party Punch

20 min + chilling

YOU NEED

- [ ] 1 cup dried hibiscus (zobo) leaves
- [ ] 8 cups water
- [ ] 1 thumb ginger, sliced, 4 cloves
- [ ] ½ pineapple, peeled (keep the peel too)

STEPS

1. Blend everything until smooth.
2. Pour into ice-pop moulds or small cups.
3. Freeze for 6 hours or overnight.
4. Run the mould under warm water for 10 seconds to pop out.

No processed sugar
20 min + chilling

YOU NEED

- [ ] Base: 1 cup dates + ½ cup sunflower seeds + ½ cup gluten-free oats
- [ ] 2 cups thick coconut yogurt

BE PREPARED

Party survival guide

Parties, owambes, church events and school trips can feel scary. With a little planning, your child can join in — and feel included.

Before the party

- Message the host early. Share the allergy card from the Printables pack.
- Ask what will be served — then offer to bring one safe dish to share.
- Feed your child a proper meal first, so they're never hungry and tempted.

Pack a "party box"

- A slice of the Celebration Cake, frozen ahead in portions.
- Nuggets, plantain chips, fruit kebabs, a juice from Healing Sips.
- Make it look special — a bright box, a sticker, a party napkin.

At the party

- Stay close to the food table for younger children.
- Teach a simple line: "No thank you, I have my own special snack."
- Watch for shared bowls of sweets, chin chin and puff-puff.

Eating out

- Choose grilled chicken or fish, plain rice, boiled potatoes, salad.
- Ask: "Is there wheat, milk, butter, egg or corn starch in this?"
- Avoid sauces, gravies, batters and anything deep-fried in shared oil.

Sensory overwhelm is real

Loud music and crowds can be a lot. Arrive early when it's quiet, find a calm corner, and plan a gentle exit time. Leaving happy is a win.

BONUS BOOK 5

What God Says About Your Child — 31 Days of Bible Declarations for Parents

31 daily declarations

The Word says it — and I say Amen.

BY

Tris Eliverson

WELCOME

What God says about your child

Dear Mama, dear Papa,

Some days the reports, the waiting rooms and the worries are loud. On those days, I needed something louder: **what God says about my child**.

These 31 Bible verses are the ones I spoke over my own child — about healing, deliverance, restoration, speech, understanding, peace and strength. Each day has the verse, a simple explanation of what God is saying, and a declaration for you to speak out loud.

Say it over your child as they sleep, on the school run, or while you cook. Put their name in every declaration. And end each one the way I do:

“The Word says it — and I say Amen.” ♥

Read it slowly — out loud if you can. All verses are from the King James Version (KJV).

2 **Understand what God is saying**

The simple explanation helps you see what the verse means for your child today.

3 **Speak the declaration**

Put your child's name in the blank and declare it with faith. Lay your hand on them if they are comfortable with touch.

4 **Say Amen**

“The Word says it — and I say Amen.” Amen means “so be it”. You are agreeing with God.

5 **Write it down**

Use the lines at the bottom of each page to note prayers, answers and small victories.

Keep speaking life

Thirty-one days of speaking life over your child. The words you have spoken are seeds — keep watering them.

Keep going

- Start again at Day 1 next month.
- Choose a “verse of the week” and stick it on the fridge.
- Teach your child a short verse to say with you.

Remember

- God hears every whispered prayer.
- Celebrate every answer — big or small.
- You are not alone on this journey.

> **“The LORD bless thee, and keep thee.”**
